

Business Department Information

The business department is made up of a team of enthusiastic and friendly teaching staff. We deliver GCSE Edexcel Business, A level Edexcel Business and the Btec Nationals in Business and Enterprise Extended Certificate. Alongside this we also teach A level AQA Economics.

We are a dynamic and strong team who complement each other with our skills and specialisms, teaching is often split to allow teachers to focus on specific elements such as finance and operations or marketing and human resource management. We run a range of enterprise events including a Ben and Jerrys product development project, Young Enterprise 10X Challenge and a Business Breakfast event.

Our lessons are popular with many students joining us at GCSE and progressing to the A Level and Level 3 qualifications. Numbers at A Level are increasingly growing in both business and economics A Level. The Btec course is also growing as a recognised alternative for those students preferring a coursework based assessment as opposed to 100% exam.

We have a wide range of resources for all lessons, assessments and independent learning activities all of which are shared across the team and provided on the school network and Microsoft Teams for students to access. We offer a number of additional catch up and revision sessions to further support our students in succeeding in the subject. We share an office with other social science subjects including law, psychology and sociology as well as an admin assistant.

The department has designated subject teaching rooms, three ICT rooms and laptops available for booking. Each room has a smart screen, and every teacher has a laptop to make use of the school network and software.
